(778) 532-9507

Rex specializes in assisting clients with patenting their mechanical, electrical, and computer-related inventions. Rex is an intellectual property lawyer who completed his Juris Doctor degree in 2020 and was called to the bar in 2021. Before becoming a lawyer, Rex worked as a computer engineer in various tech companies in the web development, gaming, and artificial intelligence industry. This combination of legal and technical expertise allows him to understand the intricacies of patenting complex inventions and provide clients with valuable advice and representation.

**EDUCATION**

J.D., University of Ottawa, 2020 B.A.Sc. (Computer Eng.), University of British Columbia, 2014
